

# ANNUAL REPORT 2016

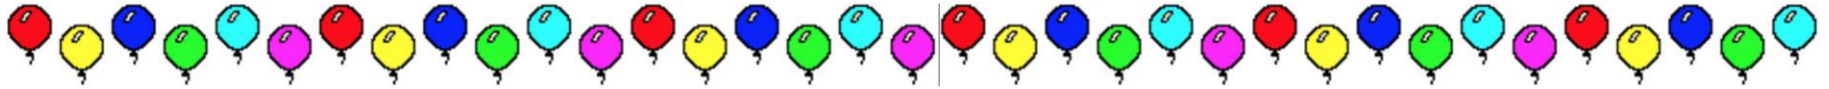

In Russia there are **625,640**  
children with disabilities.  
**19,900** children with disabilities  
are contained in 122 orphanages.

About **30%** of children with  
disabilities have parents.  
But children live in orphanages.

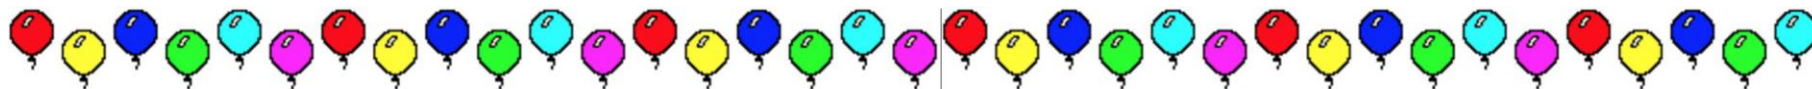

More than **60%** of families  
with children with disabilities  
need annual financial assistance  
for treatment and rehabilitation.

**Founder**  
**MARY DUDLEY**

**President**  
**DIEMA'S DREAM FOUNDATION**

**Founder**  
**DIEMA'S DREAM FUND (Russia)**

It's been over 20 years since we started the first steps to make the lives of the most disadvantaged orphans - orphans with disabilities better. We have

become more experienced and wiser and have grown significantly.

In 2016 we moved to a new level of work; for the first time we held a conference with International participation **"Innovative practices of working with children with disabilities, including children with severe multiple developmental disabilities."**

More than 180 specialists of different departments showed interest to our methods of working with "bed ridden" children. This has allowed us to significantly expand the opportunities for training and development of seriously ill children. At the seminar, we trained more than 40 specialists of orphanages in Moscow in effective methods and approaches of working with children with severe developmental disorders. We had support for our Conference from:

- **Potyaeva Tatyana**, the Ombudsman for Human Rights in Moscow, and the representative of the Office of Ombudsman
- **Batysheva Tatyana**, Director of the Scientific and Practical Center for Child Psychoneurology of the Moscow City Health Department.
- Also; Chief Specialist for Children's Rehabilitation of the Ministry of Health of the Russian Federation, Chief Freelance Specialist of the Moscow City Department of Children's Neurology, Deputy of the Moscow City Duma, President of the National of the Moscow City Duma, President of the National Association of Experts on

Cerebral Palsy and Associated Diseases, Doctor of Medical Sciences, Professor Honored Doctor of Russia, Member of the Presidium of the All-Russian Society of Neurologists, Expert of the European Academy of Childhood Disability (Karolinska University, Stockholm, Sweden).

We are very proud that part of our support team in 2016 also included:

- Legendary hockey stars **Alexander Ovechkin**, **Alexander Radulov**, **Pavel Datsyuk** and outstanding coach of the Russian youth team **Sergei Suyarko**, a man of world renown, a Soviet and Russian film director, screenwriter, artist **Rustam Khamdamov**
- Popular Russian singer and actress **Victoria Tsiganova**.

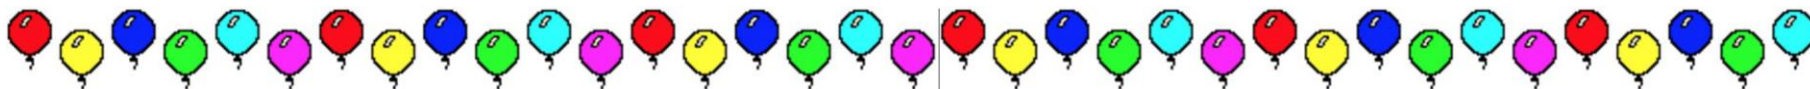

In 2016 our charity programs received significant financial support from the company **Boeing**. A partnership with **Renault** provided us with the necessary transport for travel with doctors to orphanages and delivery of material assistance.

We thank everyone who supported us in the past and who continue to support us now! Special thanks to Russian artists and the **GUM Trading House** for a unique charity evening and the opportunity to raise funds to help children.

We sadly remember with sadness the passing of Anna Krykoslavenskaya, Lucja Popenko and Alexander Pilko - they were talented artists and our trustees and contributors for many years. We will always remember the invaluable contribution of these people to improving the quality of life of children in dire need of help, love and care.

Charity, kindness, joy, love for children and the desire to give - is what unites us forever. We believe in **good** and sincere desire to help. We are proud of the achievements of our children, who, by breaking all stereotypes, perform miracles - they learn skills that were previously inaccessible to them, they learn to walk and to learn and experience the world.

**Director**  
**ELENA**  
**VOLODINA**

**DIEMA'S DREAM  
FUND**

Thanks to the financial support of companies and individuals, our fund is constantly developing directions of charity, creating, supporting and

disseminating innovative practices of working with children with severe and multiple developmental disabilities.

Thanks to the support of philanthropists, parents of children with disabilities receive a vision, hope and opportunities for habilitation of their children. And orphans get a chance to reach their potential, to learn how to do many simple things that were not available to them due to severe developmental disabilities and neglect.

We want our fund to be perceived as one of the most effective organizations in Russia, saving children with severe developmental disabilities and developing new models of working with such children.

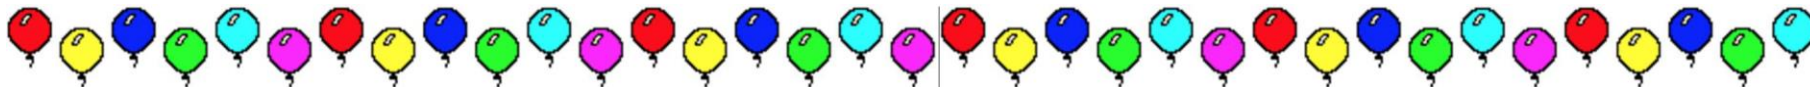

**WE SAVE CHILDREN TOGETHER** with those who want to help - hundreds of benefactors and volunteers participate in our programs. We want our fund to be a place where, at a difficult moment, there will always be help and solutions for the problems of children with severe and multiple developmental disabilities.

We see that alone it would be impossible for us to cope with the massive challenges that life has left to our children. But together - we are doing very well! We are proud of the results of each specific child and the achievements of our charitable projects! We are proud of our cooperation with partners! And we direct all our boldness, determination, knowledge and 20-year experience, responsibility, our capabilities and strengths to help the children we love so much!

**HELP WITH US!**

- **For the "bed-ridden" orphans that begin to walk**
- **For that the parents keep the child in family**

**ABOUT US**

## PURPOSE OF THE FUND

To improve the quality of life of orphans and children with severe and multiple developmental disorders (habilitation, rehabilitation, surgery, treatment and social adaptation).

## OUR MISSION

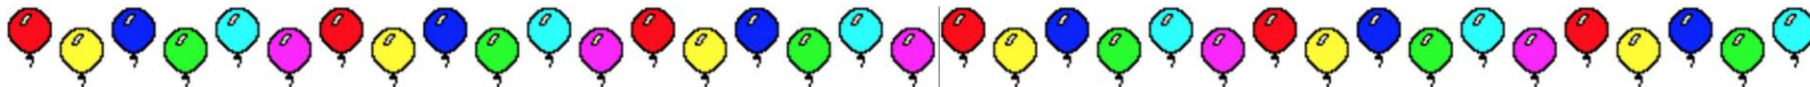

- To provide effective, professional and comprehensive support to children with serious and varied developmental disabilities and to their families
- To help disabled children adapt to society and change the public attitude towards disabled people

## WHOM WE HELP AND HOW

All projects and programs of Diema's Dream are aimed at providing comprehensive assistance to:

- Children with severe developmental disabilities and their families
- Orphaned children residing in children's homes and boarding schools

## WE HELPED

**Thanks to your support in 2006-2016  
we provided help for \$4 458 576**

\$1 029 717	Program Charity Help has helped <b>8,460</b> orphans and organized events for <b>20,218</b> orphans.
\$819 994	Our Family Center specialists have taught <b>16,402</b> sessions for <b>566</b> children living with their families.
\$454 863	Village Program gave to <b>100</b> young people with disabilities the opportunity to live as others, live in families, communicate with peers, grow and develop, gaining the skills of independent life and greater freedom.
\$1 287 953	Take a Step Program - we paid for <b>285</b> courses of treatment and rehabilitation for <b>249</b> children.
\$144 077	On-line Project - we strive to provide help to our children by useful information, distributing on our website. It also helps families raising a disabled child, helping to attract charitable funds, raising awareness of the difficulties of children with special needs.
\$721 972	Other program expenses, as well as administrative expenses.
<b>\$4 458 576</b>	<b>TOTAL</b>

# FUND STRUCTURE

Diema's Dream Fund is a Russian foundation for help to orphans and children with disabilities which is governed exclusively by Russian charity law.

The Board is a supreme managing body of the Fund which makes decisions on key issues of our activities. Control and supervision over Diema's Dream's work, application of funds and property are conducted by the Board of Trustees and Internal Audit Commission. We are regularly audited and provide individual reports on the use of donations on our donors' requests.

According to the Statute, Director is a chief executive of the Fund. She directs current activities and charity programs implementation which would be impossible without 26 employees of the Program Department.

Diema's Dream Family Center team

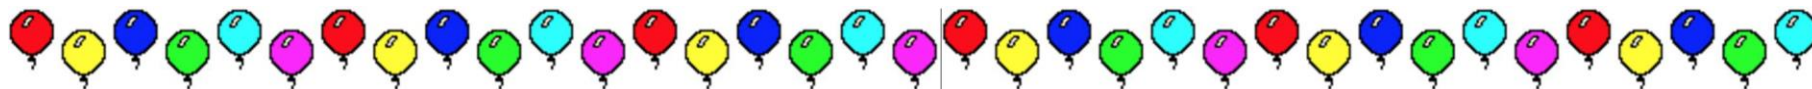

To make every program work we enlist high-qualified specialists – managers, methodologists, speech pathologists, psychologists, other special-needs experts and lawyers. A great amount of help is provided by volunteers and partner organizations.

Every Year Diema's Dream Fund and Family Center specialists take in-service professional trainings and participate in thematic conferences to upgrade their professionalism.

Since 2014, our Fund has been following the Regulations on Monitoring and Evaluation of programs and projects developed by Process Consulting Company. It allows us to track, analyze and improve the quality of our work.

Morgan Lewis Company grants legal aid pro bono, which makes it possible to keep our work to a very high standard as well as save funds, allocating them for help to children.

# HELP TO CHILDREN ORPHANS

## FEEDBACK FROM PARTICIPANTS AND PARTNERS:

"We are sincerely grateful to the Diema's Dream Fund for supporting the development of the children from the Elatma orphanage! Sincere thanks to all donors! Thanks to the joint efforts of specialists, the fund and donors, children with severe developmental disabilities receive an invaluable opportunity to develop, their lives continue to change for the better! "

***Autonomous non-profit organization  
"Promise", Ryazan***

"We express our huge gratitude to Diema's Dream Fund! Children with severe illnesses who cannot move independently learn a lot and develop thanks to your help. Thank you very much for the hope for a better life that you give to our children!!!

***Elatma`s orphanage,  
Ryazan region***

"A great seminar!", "A lot of useful things!", "It seems so simple, and what tremendous results!", "Portage" is an understandable and accessible tool for working with family and children ", " A huge gratitude for their colossal work!"

***Participants of the seminar "Basic principles of the" Portage" in individual work with children with disabilities,  
19-21 April 2016***

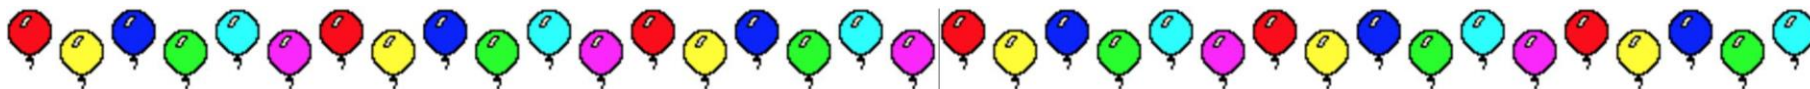

"Thank you very much for a well-organized and very useful conference!", "The material was submitted to the public in an accessible and interesting, very useful and valuable manner, and an integrated approach to the problem of children with developmental disabilities", "Wonderful methods - verticalization, Portage, Practice to work with children with HIA, I want to learn and implement this in the practice of our institution!"

***Participants of the Conference  
"Innovative practices of working with children with disabilities, including children with severe multiple developmental disabilities",  
27-28 October 2016***

"Thank you for your help in strengthening the material and technical base of our center, especially for purchasing pampers! And for sessions of dog-therapy - it is very useful for our children with cerebral palsy and autism!

***"Center for the Promotion of Family Education "Faith. Hope. Love",  
Moscow***

# CHARITY HELP PROGRAM

## PURPOSE OF THE PROGRAM

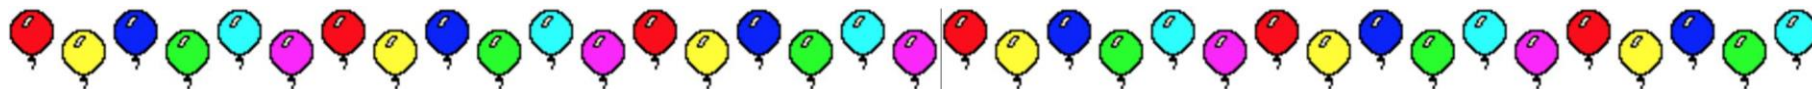

- Improving the quality of life of orphans, children with severe and multiple developmental disabilities, young children with disabilities living in public institutions
- Rendering assistance to state institutions of social protection and education for orphans and invalids

## WHAT WE ARE DOING

- We carry out developmental activities
- Organize rehabilitation and medical care
- We purchase wheelchairs, orthoses, other technical rehabilitation means
- Promote social adaptation of children
- Organize holidays, cultural, cognitive, volunteer activities
- Improve the living conditions of children (furniture, hygiene products, linens, clothes, shoes, etc.)
- We acquire special development equipment, materials for classes, development and creativity, methodological materials, equipment for playgrounds, sensory rooms, etc.
- We support the exchange of best practices in the field of rehabilitation and psychological care for children with special needs

## PROGRAM PARTICIPANTS

Elatma`s orphanage	Elatma, Ryazan region	48 children from 4 to 23 years
Center for the Promotion of Family Education "Faith. Hope. Love"	Moscow	214 children from 1 to 18 years
Kimovsk orphanage	Kimovsk, Tula region	210 children from 3 to 18 years
Efremov special (correctional) orphanage-school VIII type	Efremov, Tula region	82 children from 7 to 21 years
Psycho-neurological orphanage #18	Moscow	1 young girl older 18 years
Psycho-neurological orphanage #11	Moscow	8 young people older 18 years
Pervomaysky orphanage	Village 1st May, Kostroma region	94 children from 4 to 18 years
Almazovo special (correctional) orphanage- school VIII type	Almazovo, Moscow region	33 boys from 6 to 14 years
Center for the Promotion of Family Education Trust	Moscow	298 children from 4 to 18 years

## RESULTS IN 2016

In 2016, we provided assistance to orphans with developmental disabilities and young children with disabilities from 9 institutions.

We sought to improve the quality of their life, using an individual approach in each case, looking at the characteristics of each child and taking comprehensive measures. Our experience proves that even children with very serious disabilities have development potential and their quality of life can be significantly improved!

**HYGIENE MEANS:** during the year we collected hygiene products (soap, toothpaste, shower gels, diapers, wet napkins, etc.), clothes and toys with **Pony Express, A-Promotion, Electronic Arts, Maria Aglushevich** and other donors for the children from the Center "Faith. Hope. Love", Kimovsk orphanage, Efremov orphanage-school, Elatma`s orphanage.

**CLOTHES, SHOES, TOYS:** regularly we transfer clothes, shoes and toys to children's homes. Especially such assistance is so very much needed in the regions outside Moscow.

**INDIVIDUAL ADAPTATIONS:** for a young girl from Psycho-neurological orphanage #18, Yulia Karimova, we purchased special pillows and attachments for her movement - they fit her daily life and give more opportunities to go outside the walls of the orphanage in her wheel chair. We have known and worked with Julia since she was 8 years of age. She is now **XXX** but we cannot forget her.

**BED LINEN:** for children from the Pervomaysky orphanage, **Renault** bought sets of bed linens for all children - the last time underwear was purchased was 3 years ago, now the children have the most beautiful and comfortable new linens and underwear.

**HOUSEHOLD APPLIANCES:** for our children from Kimovsk orphanage, we purchased home appliances (irons, vacuum cleaners, TV, washing machine) by our long-time donor **Aneta Korobkina** - thanks to this the children were able to adapt to an independent life better.

**EDUCATION:** we provided training on social adaptation and rehabilitation, stationery, books, educational toys and games, goods for creativity.

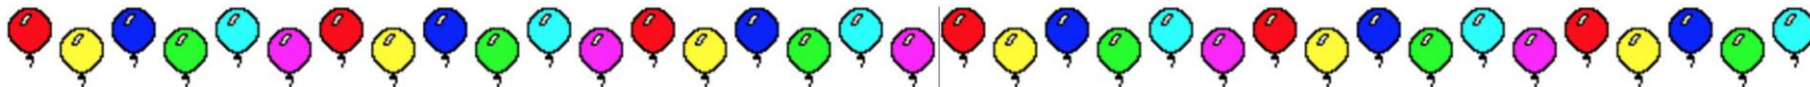

**HEALTH:** continued the projects "Verticalization", "Dog-therapy", and for the children from the Pervomaysky orphanage we organized the purchase of vitamins from **RN-Bank**.

**OFFICE SUPPLIES, BOOKS, EDUCATIONAL TOYS AND GAMES, GOODS FOR CREATIVITY:** all this we collected during the year with the staff of **Pony Express, A-Promotion** and other donors for the children from the Center "Faith. Hope. Love", Kimovsk orphanage, Efremov orphanage-school.

**NEW YEAR'S HOLIDAYS:** together with the employees of **Renault Russia**, we collected individual and group New Year's gifts for the children from the Pervomaysky orphanage. And with the employees of **Boeing Russia** - gifts for the children from the Efremov school. What there just was not - cars, dolls, puzzles, Lego, designers, kits for creativity, sneakers, children's joy there was no limit!

**EXCURSIONS, HIKES:** this year we organized an excursion to the State Historical Museum for the children from the Kimovsk orphanage, and a visit to the exhibition of robots for the children from the Almazovo school, Center "Trust", Kimovsk orphanage and the Center "Faith. Hope. Love". And for 8 brave young people from the Psycho-neurological orphanage #11 we paid the way to the Altai - they went with accompanying people on a multi-day hike. Such activities are very important for the overall development and social adaptation of children living in orphanages and boarding schools.

**VOLUNTEER ASSISTANCE:** Together with volunteers from **Sberbank**, we conducted a course of financial literacy in the Kimovsk orphanage. And during the whole year we carried out actions to raise funds for hygiene, clothing, books, developing toys, creativity kits, office supplies and much more from companies **Pony Express, Renault Russia, Boeing Russia, A-Promotion** and many others.

## VERTICALIZATION

### GOAL OF THE PROJECT

The goal of the project is the verticalization of "bed ridden" orphans.

### WHAT WE ARE DOING

- We pay for work and travel of orthopedists from the federal center in Moscow to children over 350 km from Moscow
- We pay for the daily work of specialists of adaptive physical education, massage, dressing of orthoses
- We pay the costs of hospitalization of orphans from the Ryazan region to a hospital in Moscow: we provide nannies, hygiene products and food

### PROJECT PARTICIPANTS

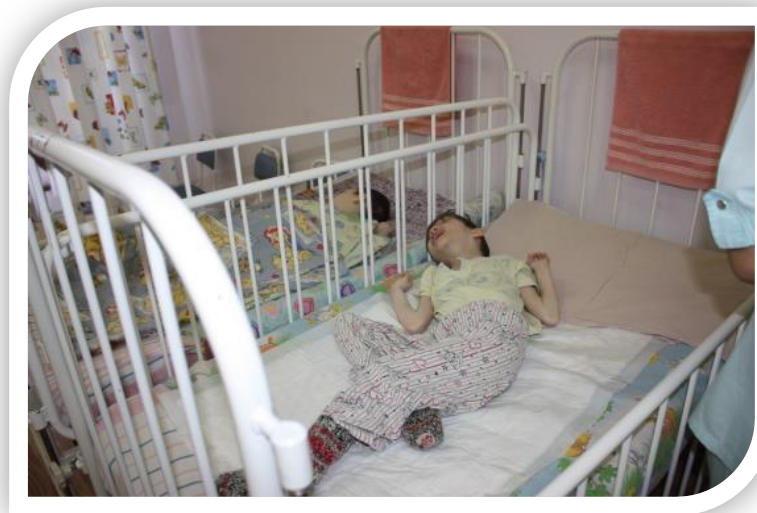

- Children from Elatma`s orphanage
- Children from Pervomaysky orphanage

### PROJECT RESULTS

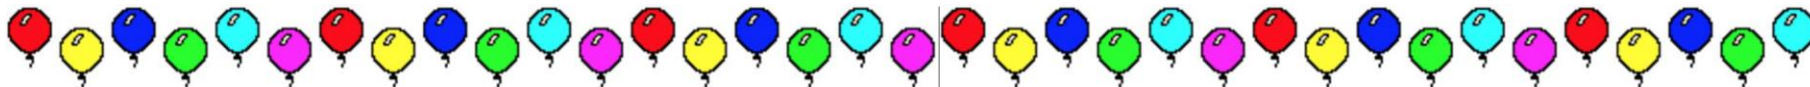

17 previously "bed ridden" children from Elatma`s orphanage:

- Everyone can stand by themselves, some walk completely independently, some with support by the hand or with the walkers
- To varying degrees, all the children have strengthened the muscles of the neck, back, legs, all continue to grow and gain weight
- The children are showing more interest in the world around them, they became attentive, active, sociable and smiling
- 13 children from Elatma passed this year for treatment and rehabilitation in the clinic of the Federal Bureau of Medical and Social Expertise, two children were operated on their legs

94 children from the Pervomaysky orphanage were examined and a rehabilitation plan and verticalization work was compiled for 30 children.

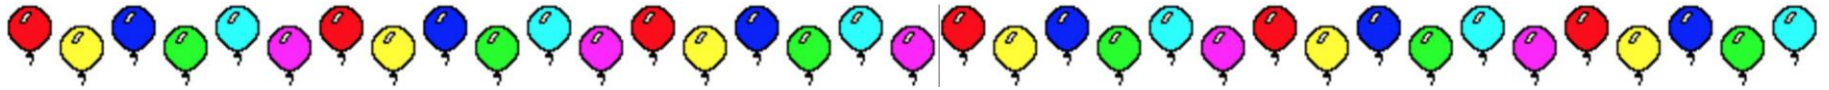

## DOG THERAPY

In 2016, we conducted 11 sessions of canine therapy together with the project "Sunny Dog" on the basis of the Center for the Promotion of Family Education "Faith. Hope. Love" in Moscow.

25 children participated in the classes - practically everyone has positive changes:

- Children began to feel their body better
- Decreases of muscle spasm
- Improves coordination of movements
- Improves the emotional state
- Speech and other communication skills improve
- Phobias were gone
- Cognitive activity develops
- These children have become more independent

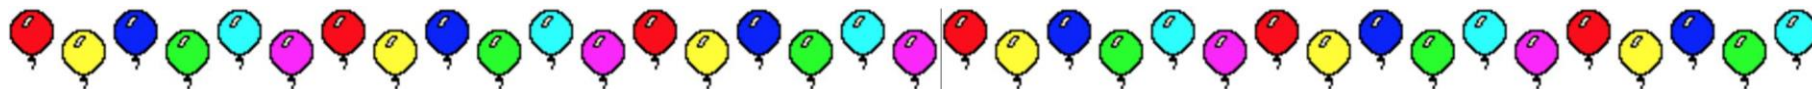

## SESSIONS ON SOCIAL ADAPTATION AND REHABILITATION

For 4 years now we have been supporting daily sessions on social adaptation and rehabilitation with the children in Elatma`s orphanage. **In 2016, 5 specialists conducted 3,060 sessions with 18 children** using the "Portage" method. Sessions are conducted in this institution since 2006.

And as a result of these many years of painstaking work, children who were considered hopeless have acquired new skills that were previously inaccessible to them:

- Wash and dress themselves
- Chew and swallow food, drink by themselves
- Sit and stand independently
- Distinguish colors, count, collect constructors, cut paper
- And many other skills in the field of movement, cognition, self-service, socialization

# HELP TO CHILDREN IN FAMILIES

## HAPPY STORIES OF TAKE A STEP PROGRAM

### From the letter of mother of Arthur A., Ulyanovsk

"We sincerely want to thank you for your assistance in the treatment at the Krupskaya sanatorium (Evpatoria). Gradually, step by step we struggle with such a disease as cerebral palsy. Children with this diagnosis cannot recover from a single course of treatment or surgery.

It is necessary to resort to sanatorium treatment, at least once a year. After the procedures in the sanatorium: mud treatment, coniferous-sea baths, back and lower limb massage, physical training and development of the lower limbs, electrostimulation of the muscles of the shins - Arthur relaxed, and he has a general strengthening of the body. Thank you very much from all our family!"

### From the letter of mother of Ilya. N, Tarasovka, Moscow region

"Our family expresses their deep gratitude for the help in the course of treatment of our son Ilya in the Medical Center" Sakura".

After he passed the course of treatment, Ilya significantly reduced the spasticity in his legs. In the class of physical therapy he learned to turn himself on one side. Already he more confidently stands on all fours and has a full support. Emotionally he began to respond to the crying and talking to the children. Thank you very much for your attention, compassion, mercy and the ability to empathize and support those who need it!"

### From the letter of mother of Veronika and Anna M., Sverdlovsk region

"Thank you very much for your good deed, which helps our children and brings the dream closer to reality - to be a healthy and independent person.

Thanks to your help, Anna was able to improve the functions of the ankle muscles. Already, she can stand on her feet. And even walk slowly, getting used to her new gait. Thanks to the rehabilitation course, Veronica's leg muscles relaxed, and the knees now close better when walking."

### From the letter of mother of Maria G., Moscow

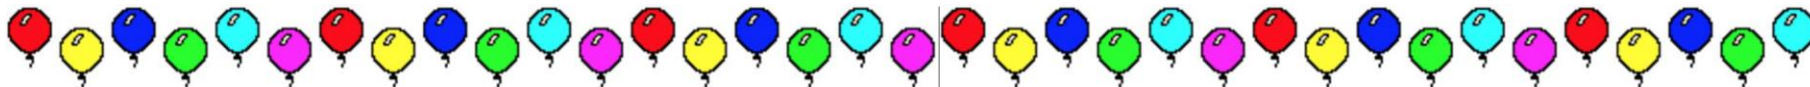

"From the bottom of my heart I want to thank all people who participated in the purchase of the stroller for Maria. It is very comfortable, easy to operate. Now Masha can easily attend school and various events, since her daughter constantly asks to go or go. Your help and non-indifference are an invaluable contribution to helping our family. Low bow to you!"

### From the letter of mother of Elizabeth K., Izluchinskiy, Tumen region

"We are sincerely grateful to the Fund that you have been with us for the seventh year already.

This year we underwent a course of treatment, thanks to which Liza continues the stage of the struggle for coordination and support of muscles and joints. Still there are strong hyperkineses, which decrease with "good" physical activity. Her tenacity can only be envied. After this course, she began to sit more confidently without support, maximally developed her left arm, confidently stands with support on his heels. The general condition of the organism has changed a lot, many "small" achievements about which only a mother can celebrate!

## HAPPY STORIES OF FAMILY CENTER PROGRAM

### From the letter of mother of Sonya K. (18 years old, cerebral palsy)

"Having such a complex child as our Sonia, which doctors and rehabilitation centers consistently refuse, we can say with absolute certainty that it is impossible to thank the help of the Foundation's specialists to our family!

You would see how our Sonia rejoices at every visit of the teacher! There are no such specialists in Moscow, and if for some reason we lose the opportunity to continue our studies, the loss will be irreparable.

With great Respect and enormous Gratitude, the family."

### From the letter of mother of Alexandra K. (11 years old, cerebral palsy, retinopathy of 5th degree (blindness), ZPR, ZRR, EPI-syndrome)

"When in 2010 we got to the center, Sasha could only lie on her back, she constantly cried, she did not speak. As a result of working with the specialists of Family Center, Sasha's psycho-emotional state was normalized (she adequately perceives what is happening around, discerns people's speech, fulfills my requests, controls her emotions), Sasha became very mobile (she learned to turn over, sit down, move on all fours, get off the bed, actively works with 2 hands). In her speech, Sasha became more emotional. If before she did not utter a sound, then during the lessons our daughter constantly has new sounds and words. And most importantly: if before Sasha was afraid to talk, now she had a need for speech. Sasha is very used to her teachers, she always looks forward to them and is very happy with their coming!!!

Classes with specialists from the Center - this is the only opportunity to study, because this center employs specialists who are able and are not afraid to work with our children. "

### From the letter of mother of Maria G. (17 years old, cerebral palsy)

"The doctors said that Masha would never speak, understand or walk. But at 5 years Masha began to receive help in visiting the Diema's Dream Family Center.

At that moment, Masha could stand and sit with support, saying "yes", "no", "dad", "mom", "baba", "give", "on" and understood the spoken speech.

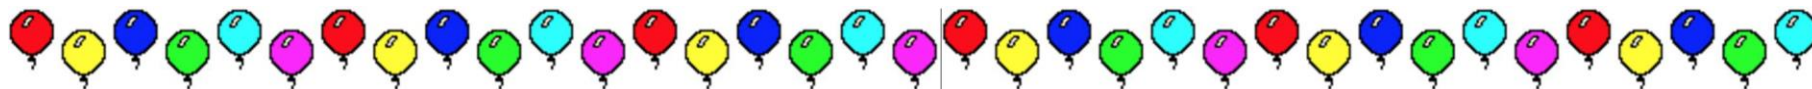

Thanks to the Fund, Masha began to attend not only classes, but also children's events and events. There was a dialogue with the kids. All this was very favorably on her, Masha developed speech.

At age 10, together with a speech therapist from the Family Center, Masha began to prepare for school. **At 12, Masha went to the 1st grade of the correctional school of the 8th kind!** The school is given to Masha not easily, but she does not give up. Masha writes hand in hand, reads stories by syllables, solves examples on addition and subtraction.

Now she says everything: she expresses her thoughts, tells stories and loves to talk with her grandmother on the phone.

Thanks to the exercises of LFK, Masha can stand and walk a bit with support, roll over and crawl a bit, using a ceiling lift Masha crawls and can sit on a stool at the table. Masha has learned to fully control the tablet, can call, correspond with it, etc. Friends and family are all very pleased with such results and are confident that with the help of further studies Masha will surprise us with her new achievements and successes!"

# TAKE A STEP PROGRAM

## PURPOSE OF THE PROGRAM

Assistance in changing and improving the quality of life of children with congenital and acquired disabilities of physical development by financing medical intervention, operations, rehabilitation treatment, and providing technical means of rehabilitation.

We receive more than **1,000** applications and requests for assistance per year. Families seeking help from the Fund are often in a critical situation because of the inability to pay for expensive treatment and rehabilitation of their children. As a result, many children, especially in regions living far from district centers, remain without treatment and fall into social isolation.

## WE PAY FOR

- Surgical intervention with a set of necessary consultative and diagnostic pre- and post-operation services
- Rehabilitation courses
- Technical means of rehabilitation
- Stay of the child in the clinic / rehabilitation center
- Stay of the accompanying person in the hospital (if necessary)

## PROJECT ACHIEVEMENTS IN 2016

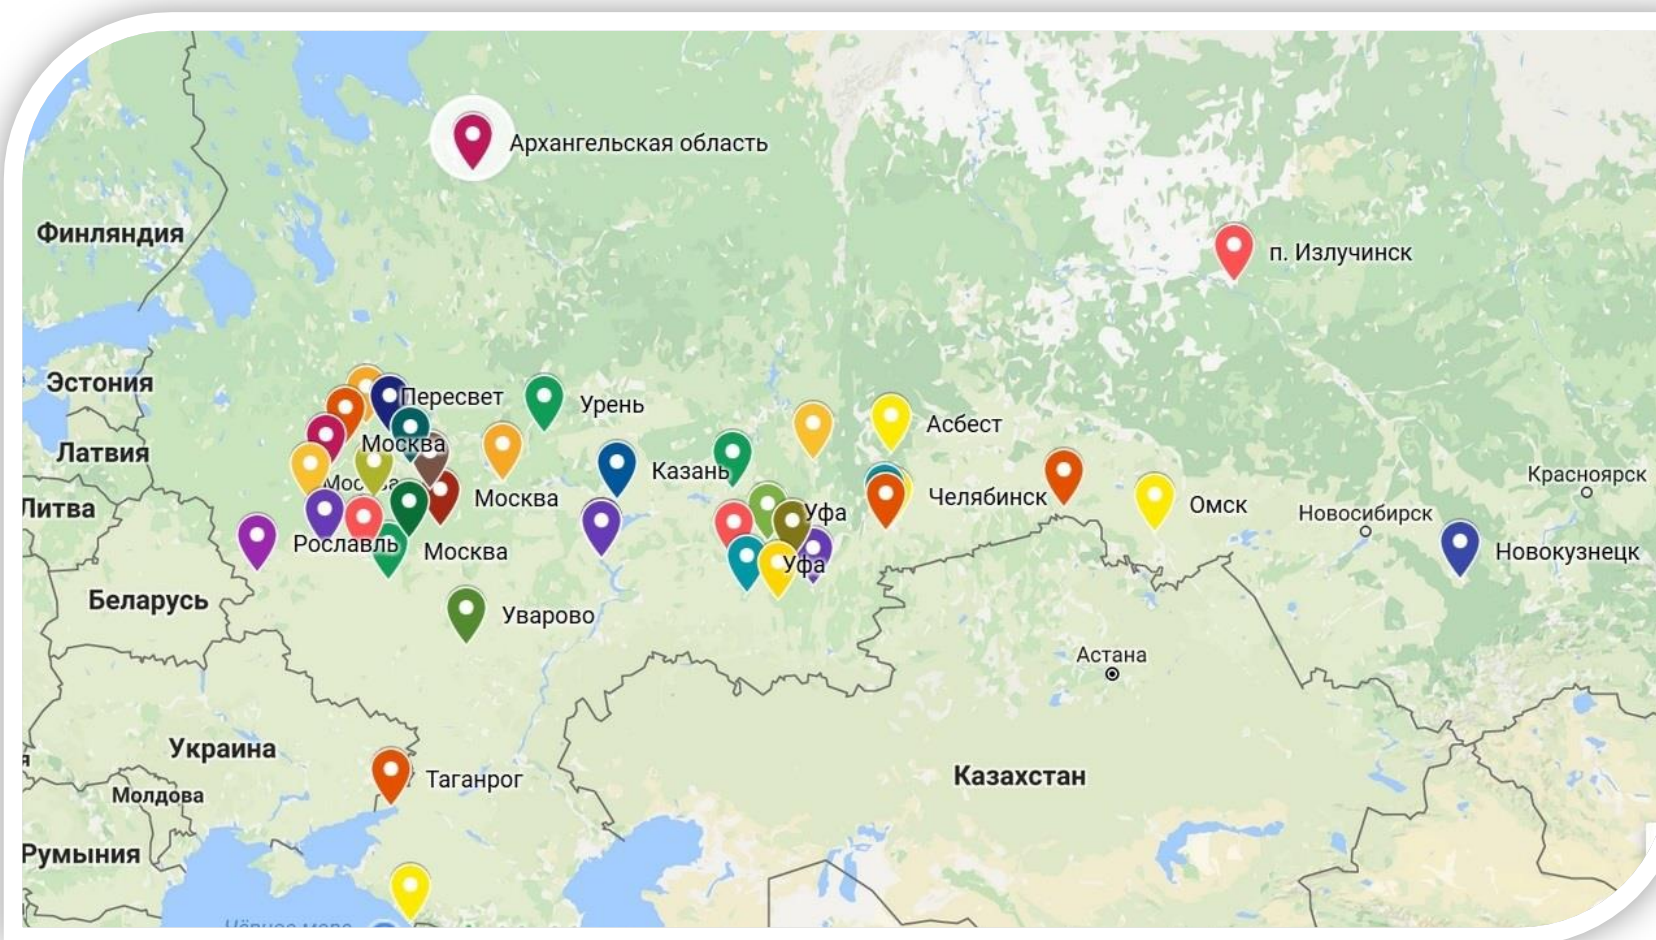

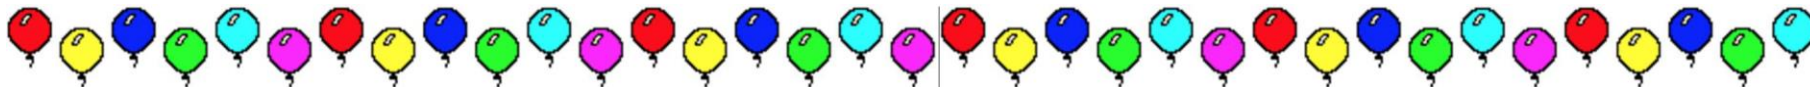

In 2016 We helped 42 children for a total of 7,381,726 rubles, paying for 21 courses of treatment, 13 rehabilitation courses and 13 pieces of rehabilitation equipment. In 2016, 17 children from the Russian Federation received financial assistance, including 11 from Moscow. (26%), from the Republic of Bashkortostan - 7 people. (17%) from other regions (Moscow region, Sverdlovsk region, Chelyabinsk region, Nizhny Novgorod region, Ulyanovsk region, Tyumen region, etc.) – 24 people. (57%).

**In total in 2009-2016 we paid for treatment for 249 children for the amount of 47 051 001 RUB**

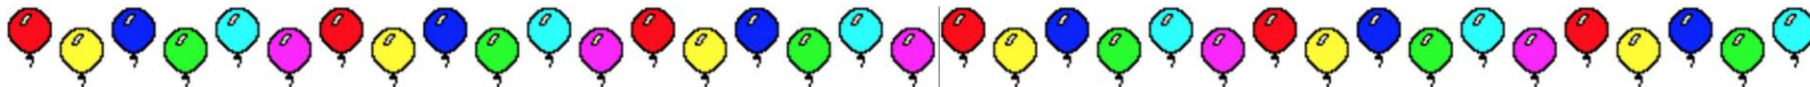

## PROJECT RESULTS

Thanks to the help provided, the health of children with severe disabilities of psychophysical development is constantly improving. All children, whom we helped in 2016, had comprehensive health improvements:

- **Fine motor skills:** some children can now open their hands, which is a prerequisite for manipulative actions with objects, including the ability to drink, eat, draw, dress, etc.
- **Motor activity:** in many children the muscle strength was increased, spasticity decreased - some children can now stand, and sit, one of the children began to stand and walk with support, and some - even independently!
- **The development of speech:** there are children who pronounce only certain sounds, syllables or individual words, someone tries to pronounce the sentences completely and are happy that other people can understand them better.
- **Mental development:** some children study in schools - the level of their intellectual development has improved noticeably.

[Take a Step Program geography.](#)

## Residence map of the Center's families

### PURPOSE OF THE PROGRAM

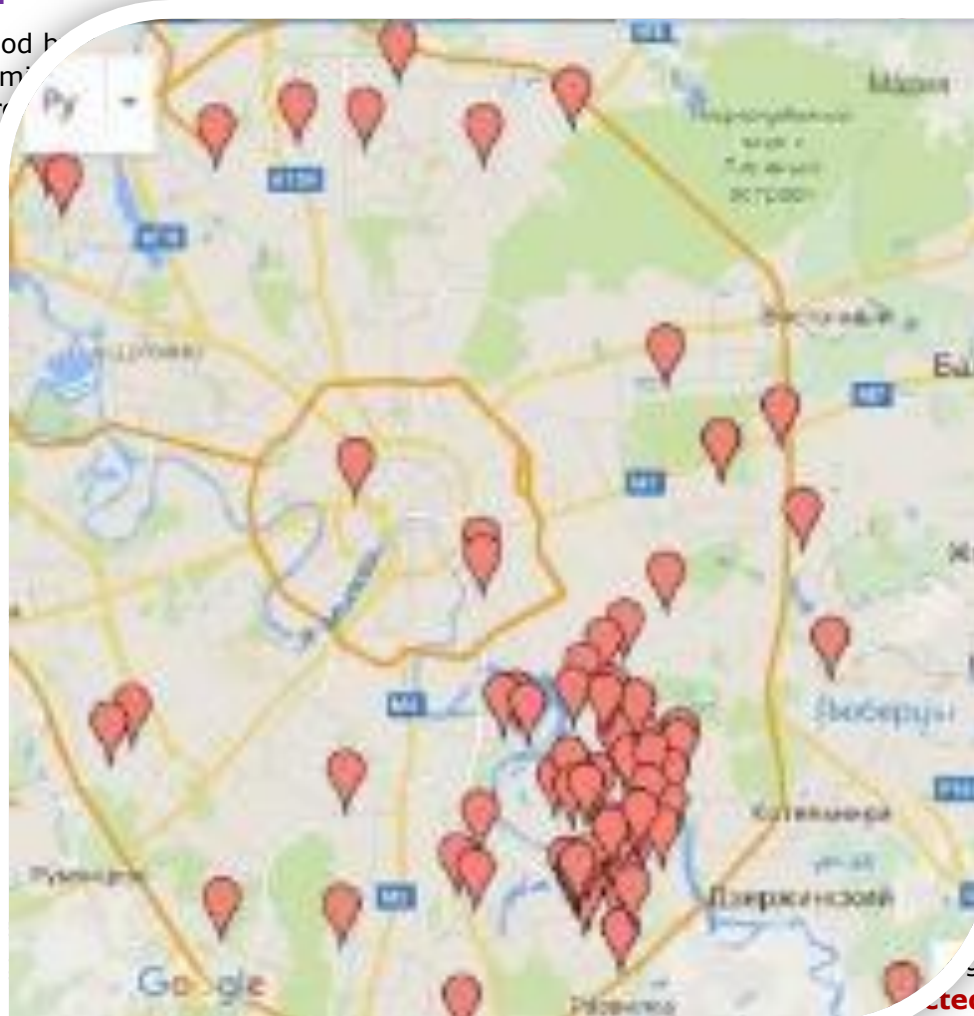

The prevention of social orphanhood by assistance to children and their families, psychophysical development disorders.

We are talking about children who were in orphanages for mentally retarded children, where they mostly live in beds, do not have communicative experience, do not have skills and abilities, never leave the institution, stayed in the family, and we support them.

### WHAT WE ARE DOING

- We conduct through evaluation
- We make an Individual Plan for each child
- We advise parents
- We carry out correctional-developing classes in the mode "Home visits"
- We organize joint cultural and festive events for families
- We conduct master classes for parents
- We encourage volunteers and the public to support families with children with disabilities
- We provide material assistance
- We help children who are being rehabilitated in the Children's Orthopedic Department of the Federal Bureau of Medico-Social Expertise)

### RESULTS IN 2016

### 93 families from Moscow.

development work of the maximum realization of the potential of each child occurs, the problem of the families is solved, parents see the results for their children and are satisfied with the success of social rehabilitation, the presence of specialists at home, that the life of the family.

of charge and are funded by grants from individuals and legal

children with severe disabilities admitted to other correctional institutions before in 2016:

with children with complex physical development received qualified specialists of the Center for the Individual Development

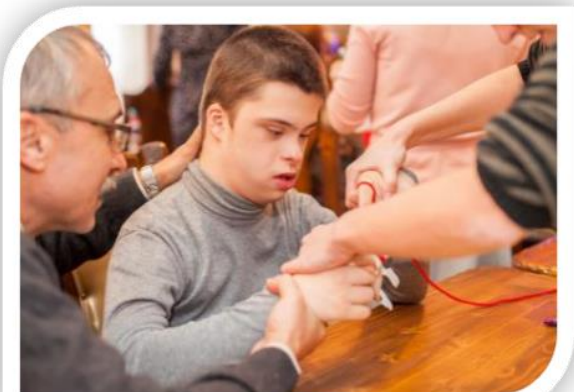

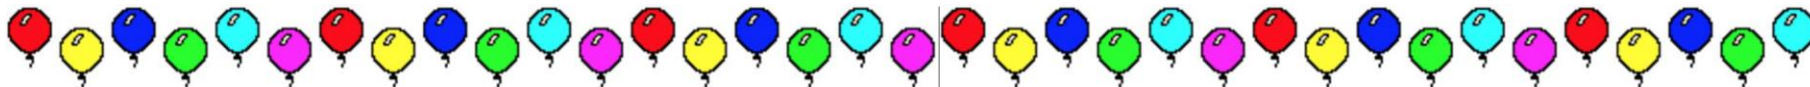

received support in the form of cooperation with the St. George School.

**Evaluations for new** by specialists of the Center, and potential are revealed, a plan is being drawn up, and support is given to parents.

**Conducted 1,749 lessons,** free of

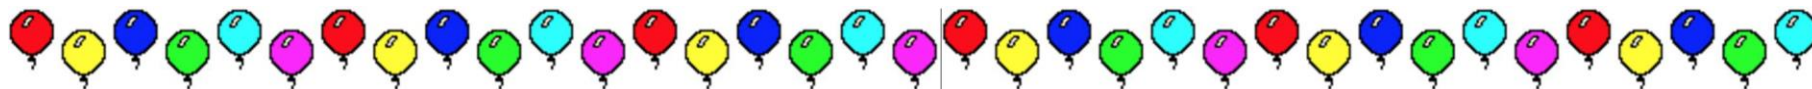

charge for the parents.

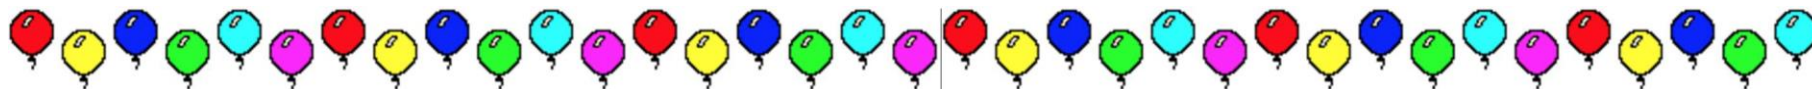

### Family Center festive events

Sessions and masterclasses in Diema's Dream Family Center

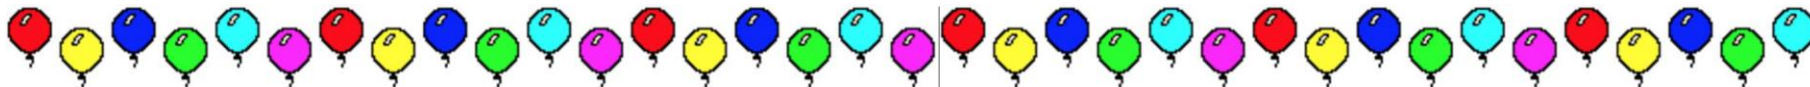

## ACTIVITIES OF FAMILY CENTER IN 2016

January	Meeting of the families of the Center on the occasion of the New Year 2016
March	Organization of painting of the walls of the children's orthopedic department of the "Federal Bureau of Medical and Social Expertise" (FBMSE) by the artists of the "Children of Mary " studio and the "Pelican" Charitable Foundation
March	Visit to the families of the children's game training center "Kidzaniya"
April	Day of beauty in the hotel "Ararat Park Hyatt Moscow". Event for the mothers of the Center
May	Visiting the Zoo "Zveryushki"
November	A trip with families to the Vladimir Regional Public Organization "Association of Parents of Disabled Children "Svet" to familiarize with the arrangement of the accompanied by people with disabilities
November – December	Action "Gift from the Snow Maiden"
December	Meeting of families on the occasion of the upcoming New Year 2017
December	New Year's performance in the Kurazh Theater
December	Visit to the Center for Adapted Excursion in the Museum "Living Systems"
December	Visiting children of the VTB Charitable Christmas Tree Center (musical "Bremen Town Musicians")

Thanks to joint activities, families receive the communication they need, share experiences and useful information with each other. Parents and children are charged with joy and positive energy!!

## VILLAGE PROGRAM

**OUR VILLAGE** is a small territory located inside the city of Kimovsk. It is built for young people with disabilities, who since childhood have the status of an "orphan".

From 2008 to 2016, every summer, and in 2011 - all the year round, we held summer camps in our Village for families with disabled children and for wards of psycho-neurological boarding schools. For many children our house became the only place where they could leave for a while from the walls of state institutions. Most of the wards - since childhood, lived in an orphanage for mentally retarded children, and as adults they live in an orphanage for adults. This is such a life, where practically no personal space, attachments are short-lived and there is practically no possibility to decide what to do with your life. We believe and hope that one day there will come a time when everyone can live at home, despite any psychophysical disturbances.

For these older children, we regularly conducted independent living in an ordinary house. This is difficult enough, in 25 years to learn to cook porridge or borsch, make a shopping list, go to the grocery store and watch the broth. After all, many children from childhood lived in an orphanage for disabled children and were far from the kitchen. But this is just as interesting.

As a result, young people learned to live independently with delight from their achievements and sometimes grief from failures. But it is achievements that inspire hope and confidence in the future. In each orphanage for adults with disabilities up to 600 people live, but many could live in society with the necessary support.

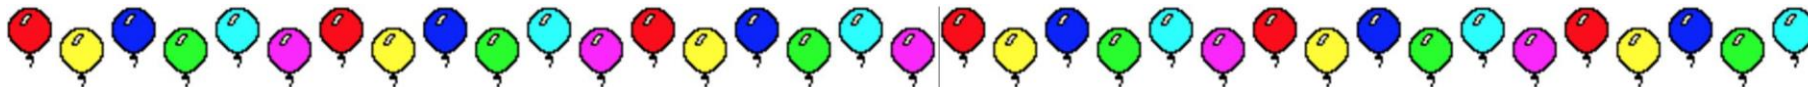

Areas of activity in the training:

- Planning and analysis of the day
- Self-service
- Personal hygiene
- Cooking
- Care of personal things
- Cleaning the room
- Treatment of money
- Social behavior
- Use of communication tools
- Leisure activities

In 2016, we completed the project, but we are thinking of creating a new Program of Accompanied Living.

# "HELP OUR CHILDREN!" PROJECT

## GOAL OF THE PROJECT

To create an information resource and provide information support to needy families, parents with children, and inform the donors about children and families who need their help.

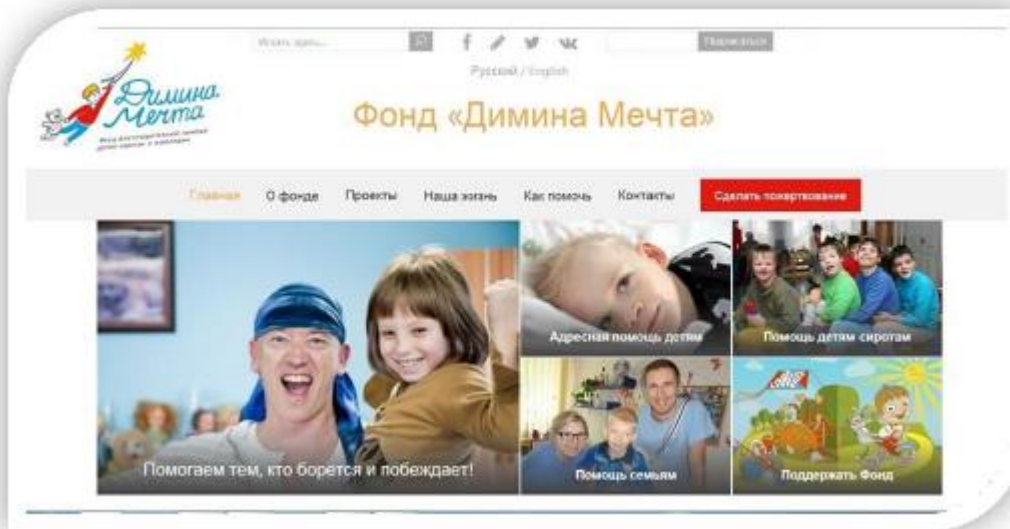

## WHAT WE ARE DOING

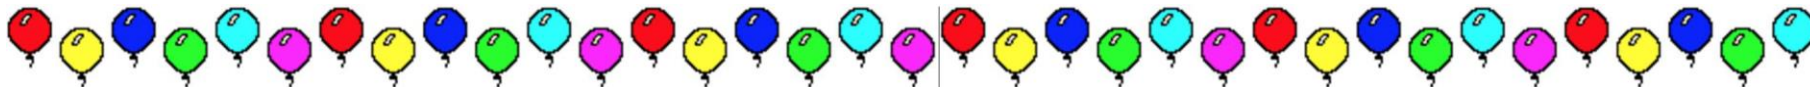

- We place on our website requests for assistance
- We inform the donors about children and families who need their help
- We provide technical opportunities for collecting donation

## RESULTS IN 2016

In 2016, our main task was to increase the availability and presence in the Internet. We became more active participants in social networks, found new friends, supporters and partners.

An important result was the development of a new site and the transfer of the fund's site to the new Wordpress platform. A new domain ddfRussia.ru was registered. New cooperation with the company CloudPayments has significantly improved the ability of the donors.

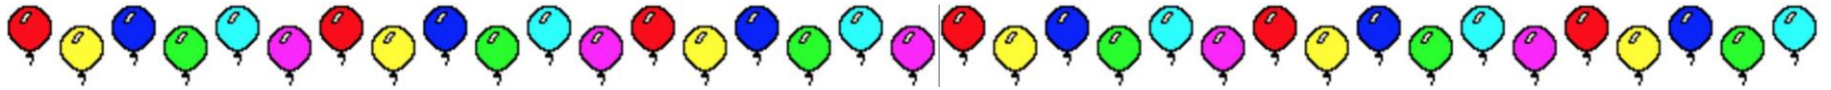

## EVENTS

### TURNING THE HOSPITAL INTO A FAIRYTALE HOUSE

In 2016 we actively cooperated with the Children's Orthopedic Department of the Federal Bureau of Medical and Social Expertise of the Ministry of Labor and Social Protection of the Russian Federation. Our partners - the artists the charity "Maria's Children" have significantly changed the walls of the hospital. With the financial assistance of **East-West Partners** and **Pony Express** employees, we filled in the children's wards and the games room with new developing equipment, toys and methodological and developmental aids. Now the children, who spend many months within the walls of the hospital on treatment - will live this time with joy.

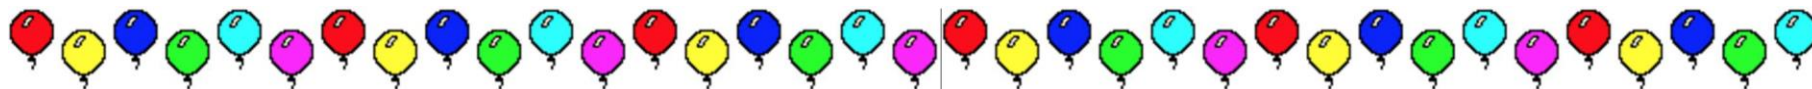

In the photo, there were just walls,  
and in places just gray walls.  
It became a colorful fairytale kingdom!

**Disconsolate walls and empty corridors of the children's hospital have transformed. Now it isn't just a place for treatment. It has conditions for inclusive development, socializing, games and joy.**

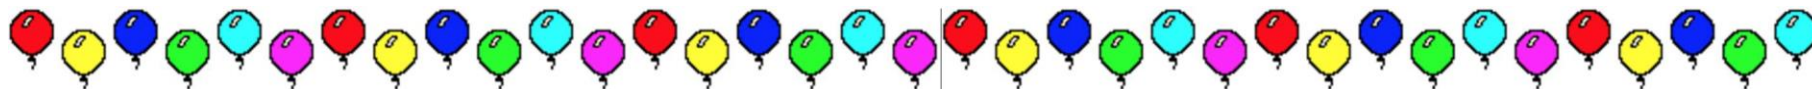

## TRAINING SEMINAR "BASIC PRINCIPLES OF THE METHODOLOGY – PORTAGE"

On April 19-21, we organized a seminar "Basic principles of Portage" a methodology in individual work with children with disabilities ". It was attended by 43 specialists from 20 organizations working with children with developmental disabilities. Partners and speakers were specialists from the "The Promise" Foundation (Great Britain), the Ryazan Pedagogical Institute, the Elatma`s orphanage, the Yasenevo Territorial Branch of the City Psychological and Pedagogical Center in Moscow.

## CONFERENCE "INNOVATIVE PRACTICES OF WORKING WITH CHILDREN WITH DISABILITIES, INCLUDING CHILDREN WITH SEVERE MULTIPLE DEVELOPMENTAL DISABILITIES"

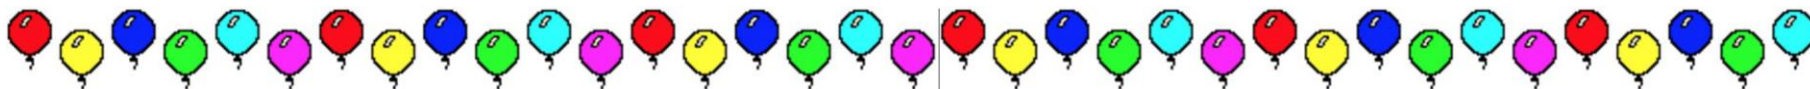

On October 27-28, in Moscow, we held a conference "Innovative practices of working with children with disabilities, including children with severe multiple developmental disabilities". 121 specialists from 67 organizations took part in a conference.

At the conference, we presented our experience in the methods of "Portage", Verticalization, Dog-therapy. Partners and speakers were specialists from the "The Promise" Foundation (Great Britain), Elatma's orphanage, the Yasenevo Territorial Branch of the City Psychological and Pedagogical Center in Moscow, ANO Obeschanie (Ryazan), the Center for Curative Pedagogy (Moscow), "Center for Leisure and Sport of SOC-IN" (Moscow), the Federal Bureau of Medico-Social Expertise of the Ministry of Labor and Social Protection of the Russian Federation (Moscow), the ANO "The Training and Cynological Center "Dog-Assistants of the Disabled people" (Moscow), the Center for the Promotion of Family Education "Faith. Hope. Love" (Moscow).

Thanks to these activities, we were able to tell the professional community about effective methods of working with children with severe developmental disabilities, which will promote the dissemination of these methods in Moscow and throughout Russia - which means that hundreds of thousands of children will have a real opportunity to develop and live more fully.

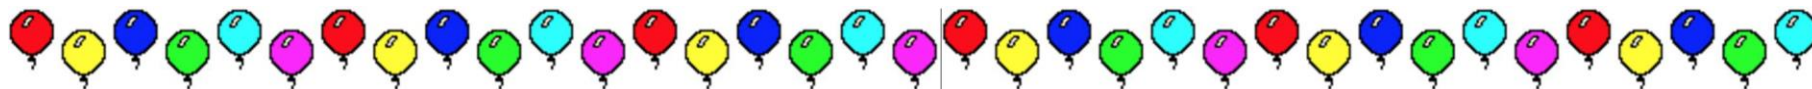

The conference was attended by more than 180 specialists from 40 institutions providing social services for children with different disabilities.

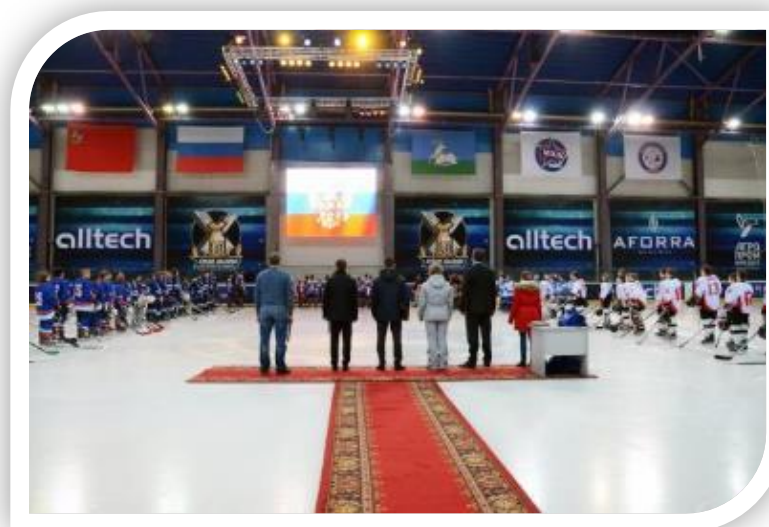

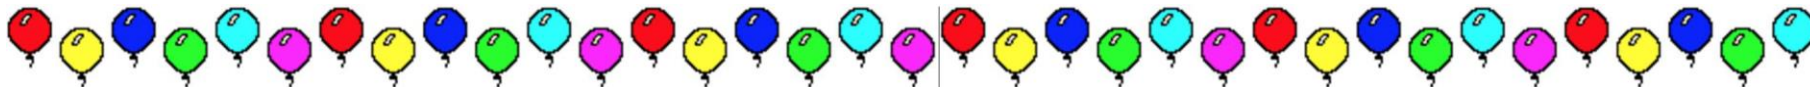

## FIRST IN RUSSIA CHARITY INTERNATIONAL ICE HOCKEY TOURNAMENT "DIEMA'S DREAM" OF THE RUSSIAN ICE HOCKEY SCHOOL "ICESTYLE" OF SERGEY SUYARKOV

For the first time in Russia, from 22 to 26 March 2016 in ice arenas, the Park of Legends and the Municipal Children's Center for Hockey and Figure Skating in Odintsovo We held a children's charity ice hockey tournament. In the Charity tournament took part young men born in 2003-2008. From 23 teams of philanthropists representing Russia, Ukraine and Belarus.

In total, we collected 851,660 rubles of donations. The funds were sent to help 5 children with disabilities in the development of the musculoskeletal system – 1 course of treatment, 2 rehabilitation courses, 2 technical means for children's rehabilitation.

We hope that this holiday of sport and good will become a good tradition and will help many more needy children.

## DAY OF THE DONOR BY RENAULT RUSSIA COMPANY

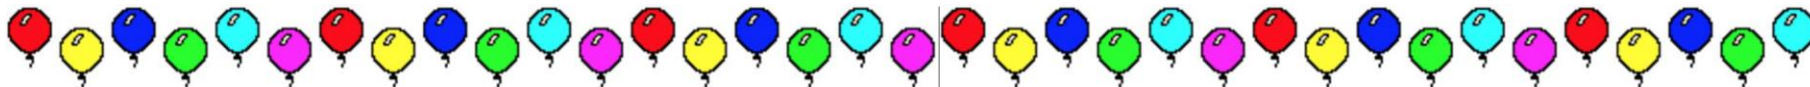

May 27th in Renault Russia, the Day of the donor, has already become a tradition. This year, the donation of blood among the company's employees is held for the third time, becoming the sixth joint charity fund with the Diema's Dream fund. The event was timed to coincide with the International Children's Day.

72 people expressed a desire to become donors. Thanks to donors, almost 19 liters of blood were collected for the Center for Pediatric Hematology. More than 500 children undergoing treatment in this clinic need a daily transfusion of donor blood and its components.

According to the normative legal acts on donation, all participants of the Day of the donor waited for monetary compensation, which, if desired, the staff could donate to the rehabilitation course for Alexei Korotkov, the trustee of our Fund with cerebral palsy. Many employees did so, thanks to which was collected 13,000 rubles. These donations enabled Alex to attend a rehabilitation course in the center "Good Hands" (Kazan) in July 16.

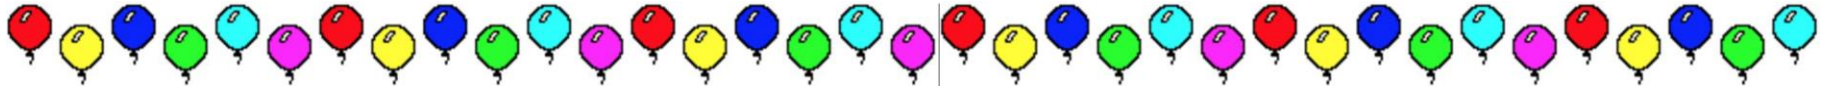

## CHARITY EVENING IN GUM

October 1, 2016 in Moscow, at the GUM Trading House we held our annual Charity event which so beloved by all the supporters of the Diema's Dream Foundation. This kind of tradition again brought together people who are not indifferent to the fate of disabled children.

A huge contribution to helping children is also brought by Russian and foreign artists. Programs such our Family Center, Village, Help to our Children and Charity Help are financed exclusively by the funds collected through such activities. And we express special gratitude to the Trade House of GUM, which provides the premises for the event free of charge. This is a huge contribution and an excellent example for imitation of other companies.

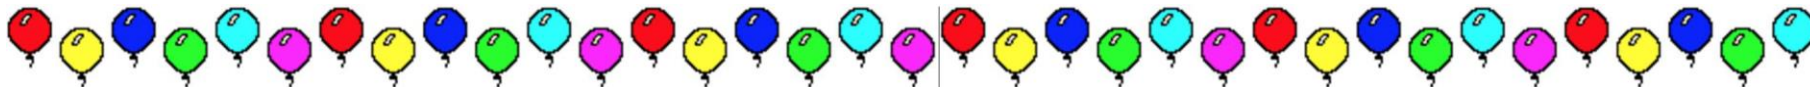

## THE MUSICAL MARATHON THE INTERNATIONAL SCHOOL OF MOSCOW

In November, the students of the International School of Moscow held a Charity Music Marathon and raised funds for the rehabilitation of children with cerebral palsy! During the last 3 charity music marathons, a total of 2 million rubles were collected (£ 25,000). Students from the **International School of Moscow** sang and played music for 12 hours and collected 500,000 rubles of donations, 384 550 rubles were sent to Diema's Dream.

## THE FINANCIAL LITERACY COURSE FROM SBERBANK VOLUNTEERS

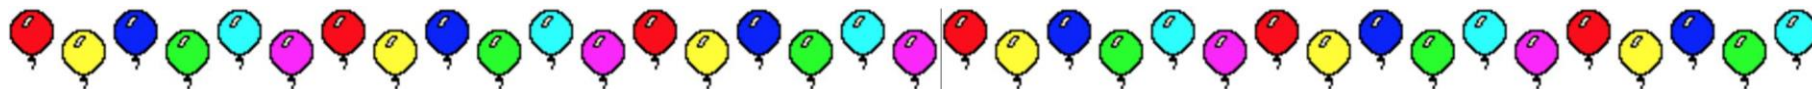

We often hear and know from experience that graduates of orphanages are ill-equipped for independent living. A number of our projects are aimed at training independent living. Therefore, the idea of volunteers of the Savings Bank was very relevant!

The volunteers came to the Kimovsk orphanage with a course in financial literacy and training, writing a resume.

What is money? What were the first money and banks? How to save money for your dream and at the same time correctly cover current expenses? What will happen if you do not return the loan or immediately spend your entire salary for what you want?

The children not only learned the answers to these questions, but also in practice they trained to plan a budget and to separate the necessary expenses from others. And after the training, everyone got a cognitive book from Sberbank and an unusual cake.

## A WHOLE YEAR ON THE RENAULT DUSTER!

In 2016 we were very lucky! The company **Renault** granted our fund a free car, a **Renault Duster**. We carried out more than 170 long-distance work trips lasting from 7 hours to 18 hours per day.

### Material Aid to Orphans and Boarding Schools

12 trips to orphanages and boarding schools in Moscow, Tula, Ryazan and Kostroma regions (6 wards) with the delivery of material assistance.

Organized 4 trips of the doctor-orthopedist Pozharischensky KE (Honored Doctor of Russia, Professor, Head of the Children's Orthopedic Department of the Federal Bureau of Medical and Social Expertise of the Ministry of Labor and Social Protection of the Russian Federation, Moscow) in 2 wards. Thanks to this, more than 150 children from the remote area of Elatma received highly qualified assistance in the rehabilitation independent movement.

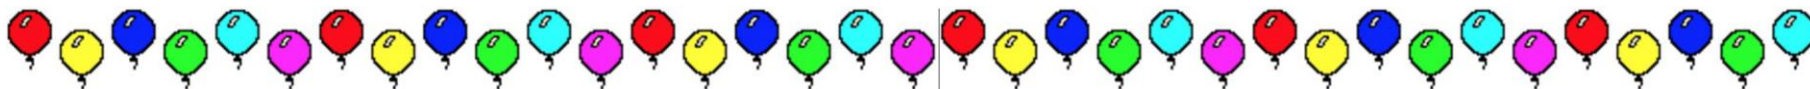

### Dissemination of Innovative Methods of Working with Children

- Organized and conducted a training Seminar "Basic principles of the" Portage "methodology in individual work with children with disabilities"
- Conferences with international participation "Innovative practices of working with children with disabilities, including children with severe and multiple developmental disabilities"

### Charity Events

- Russia Charity International Ice Hockey Tournament "Dimina Mechta" in two cities in Moscow and Odintsovo
- Charity evening in GUM
- Collection of funds from collection boxes around Moscow requiring multiple trips each week

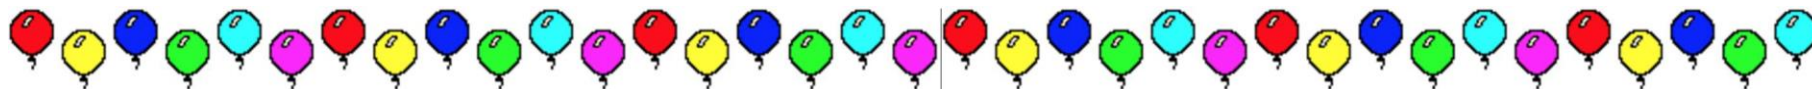

Thanks to the spaciousness and cross-country **Duster**, we could carry in it large equipment and large amounts of material assistance. This is exactly what we dreamed about many years earlier and what we were looking for when addressing various organizations.

Thanks to this machine we were able to transport:

- People
- Large and small household appliances
- Stands and boxes for collecting donations and funds
- Materials and equipment for mass international events (more than 500 people)
- Wheelchairs and other rehabilitative equipment

**Our deepest thanks to Renault Russia Company for the granted car! We have managed to do a lot with it!**

## FINANCIAL REPORT 2016

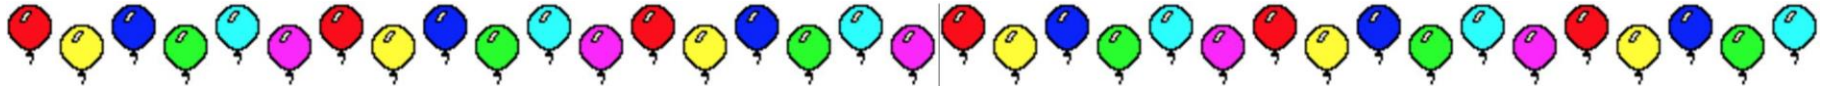

Programs	Balance as of 31.12.15	Donations	Expenses	Balance as of 31.12.16
Charity Help Program	\$10 733,33	\$67 608,35	\$59 535,95	\$13 445,43
Family Center Program	\$7 915,57	\$52 793,76	\$45 363,66	\$0,00
Take a Step Program	\$30 338,25	\$115 689,65	\$132 582,47	\$13 445,43
Village Program	\$307,98	\$8 327,83	\$8 635,81	\$4 376,62
"Help to Our Children!" Project	\$1 810,57	\$15 751,75	\$13 185,70	\$0,00
Other expenses (rent of office, transportation costs, communication services, bank commission, salaries of administrative staff)	\$12 168,88	\$122 000,69	\$61 118,86	\$73 050,71
<b>Total:</b>	<b>\$63 274,58</b>	<b>\$382 172,02</b>	<b>\$320 422,44</b>	<b>\$104 318,18</b>
Bank transfer from one fund account to another during the year	\$0,00	\$0,00	\$0,00	\$0,00
Cash balance in the cash desk of the organization	\$12,54	\$0,00	\$0,00	\$0,00

In this table you can see the balance on the fund's account at the beginning of the year, the amount of funds received and expenses, as well as the balance at the end of 2016.

The Fund strictly monitors the purpose of the proceeds and provides a detailed report on the written request.

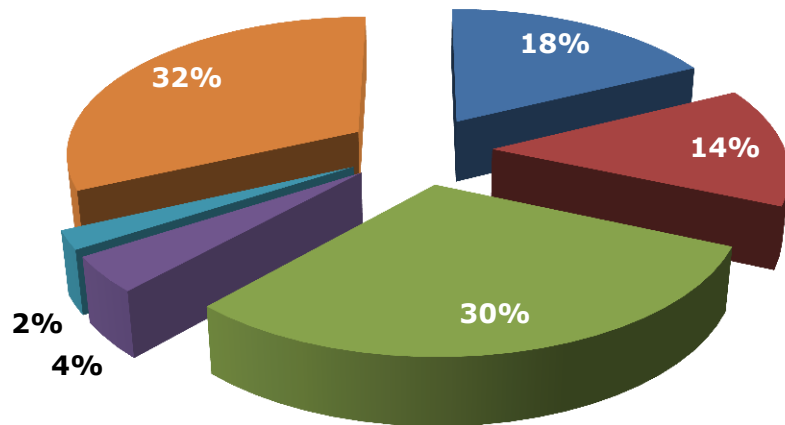

Donors or on terms specified in the donation agreements. Public financial statements are posted on the website [www.ddfrussia.ru](http://www.ddfrussia.ru) in the Reports section.

Reports on the collection and expenditure of funds for the "Take a Step" Program are published in a separate brochure on a quarterly basis and are located at **BP** petrol stations.

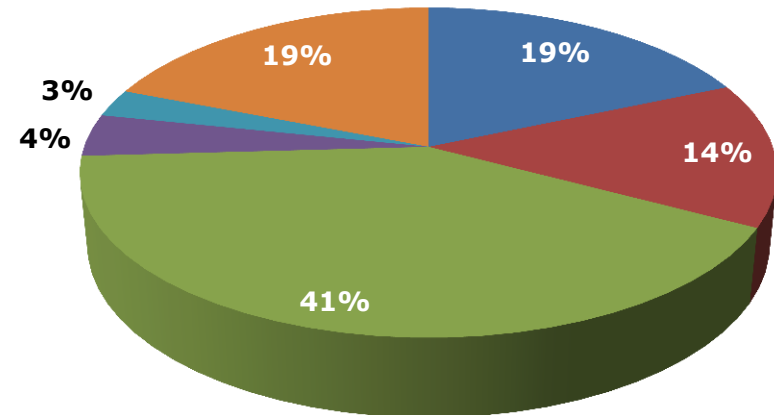

### Donations 2016

- Help Orphanages and Boarding Schools
- Center for Social Habilitation
- "Step Forward" Treatment & Rehabilitation of Children with Cerebral Palsy
- The Town "Diema's Dream"
- Project "Help Our Children!"
- Administrative Expenses

All donations arrive in the Fund's account first and they cannot be used till after that. The funds intended for statutory activities are apportioned among the most urgent needs in accordance with the Board's decisions.

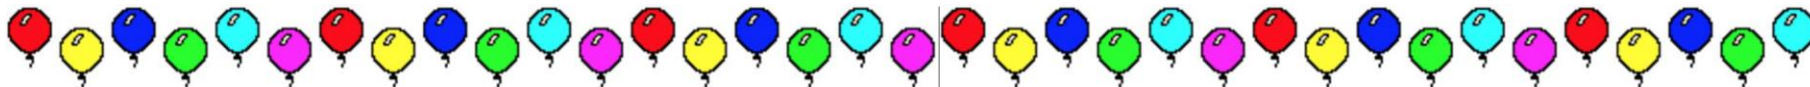

### Expenses 2016

- Help Orphanages and Boarding Schools
- Center for Social Habilitation
- "Step Forward" Treatment & Rehabilitation of Children with Cerebral Palsy
- The Town "Diema's Dream"
- Project "Help Our Children!"
- Administrative Expenses

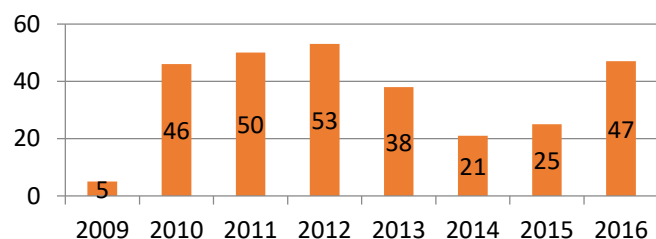

The diagram depicts the allocation of expenses to programs and projects at year-end 2016.

## WHY ANY HELP IS IMPORTANT (on the basis of the Take a Step Program dynamics)

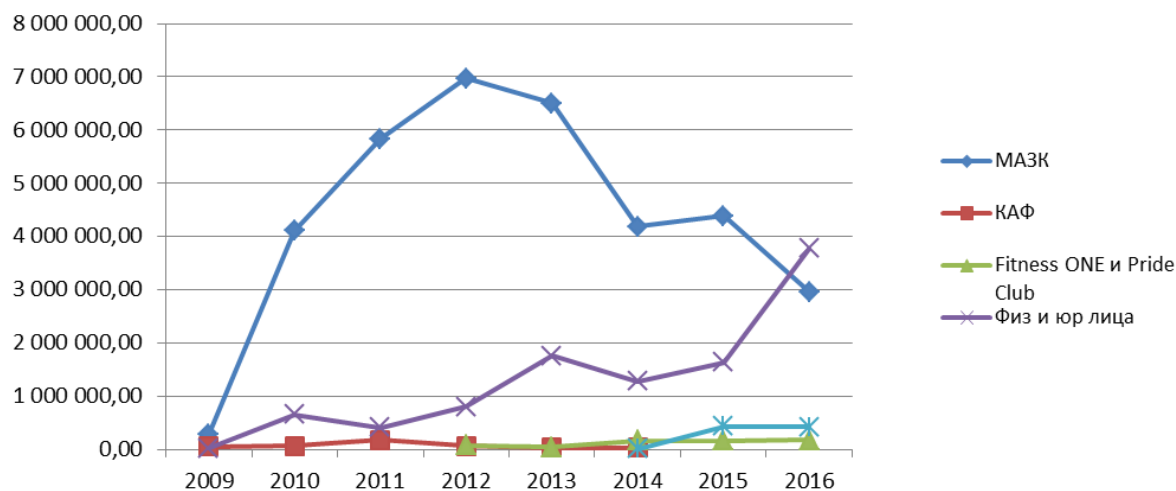

**Number of children per year**

Thanks to monitoring programs and projects we capture the current situation with requests and the changes that take place as a result of our projects. In truth, this material is worth a separate publication. We herewith suggest considering the ways monitoring helps to analyze our work in graphic form.

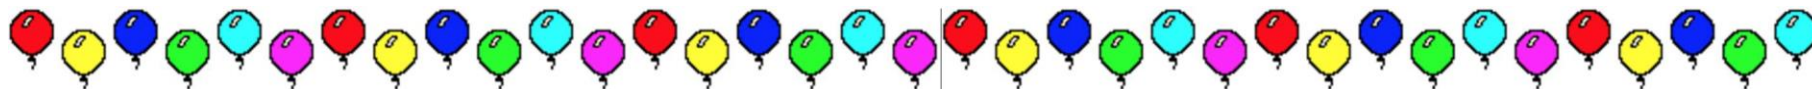

For example, the graph “Number of children per year” shows the dynamics of increasing or decreasing number of children receiving help within Take a Step Program.

And we can simultaneously see the dynamics of collecting donations on the graph below.

МАЗК are BP petrol stations, where our collection boxes are set. We can see that collection rates have been appreciably declining since 2013. It means that customers at the stations are getting less willing to leave their change in the collection boxes, probably due to economic recession. And this curve exactly recurs in the graph of help to children.

However, we can also understand how an increase in number of children we helped in 2015 started. The graph below shows the growth in donations raised from private individuals and legal entities in other ways, not through collection boxes. And we are planning to develop these means.

## RECOURSE DYNAMICS

(on the basis of the Take a Step Program data)

We launched the program and began to pay for treatment, therapy regimens and rehabilitation equipment for children with severe and multiple developmental disorders in 2009.

Since then we have been analyzing requests for assistance received from parents of the children from all over Russia. Despite the fact that the Government helps children with disability, the problems of commercial services are very acute. It is quite obvious that only limited number of children can get aid under state quotas.

The Government has established the following Quota system of treatment for children with disabilities:

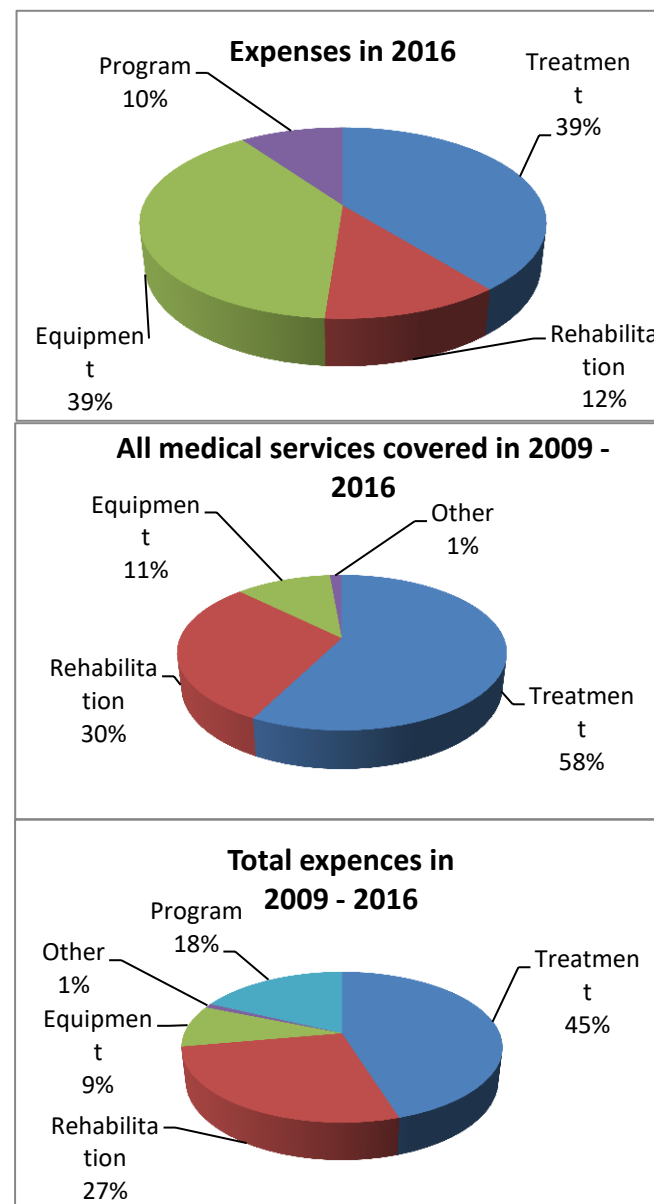

- 1 therapy course a year
- 10 massage sessions a year
- 1 body part (such as a leg) may be operated on for free once a year

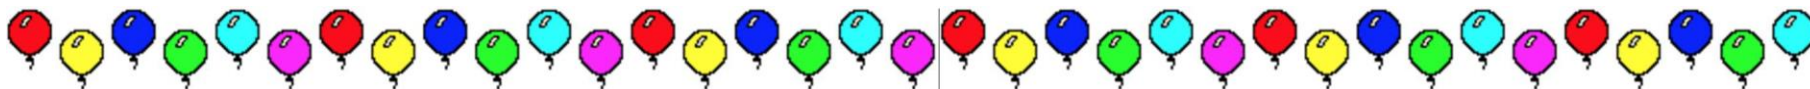

It is more effective to operate both legs simultaneously. But the second leg surgery is chargeable. Another situation is that a patient, who is treated for free, may need 2-3 courses of payable rehabilitation per year. And without it the treatment will be less effective or even completely lose its effect. So these further operations, additional treatment, complementary courses and rehabilitation equipment (e.g. wheelchairs, standing frames, walking exercise machines, etc.) can be paid for only at the Fund's expense.

The diagrams on 2009 – 2016 show that most of incoming payment applications were mainly for treatment and operations for children with cerebral palsy. Rehabilitation courses were the second most popular in requests for assistance.

In 2016 the quantity of paid rehabilitation equipment first equalized the number of granted applications for treatment.

Over a period 2009-2016 we paid for medical interventions and services for 249 children. Every year we receive more than 1000 requests and more than 100 children are waiting their turn to get help.
